

SUS-GADGET

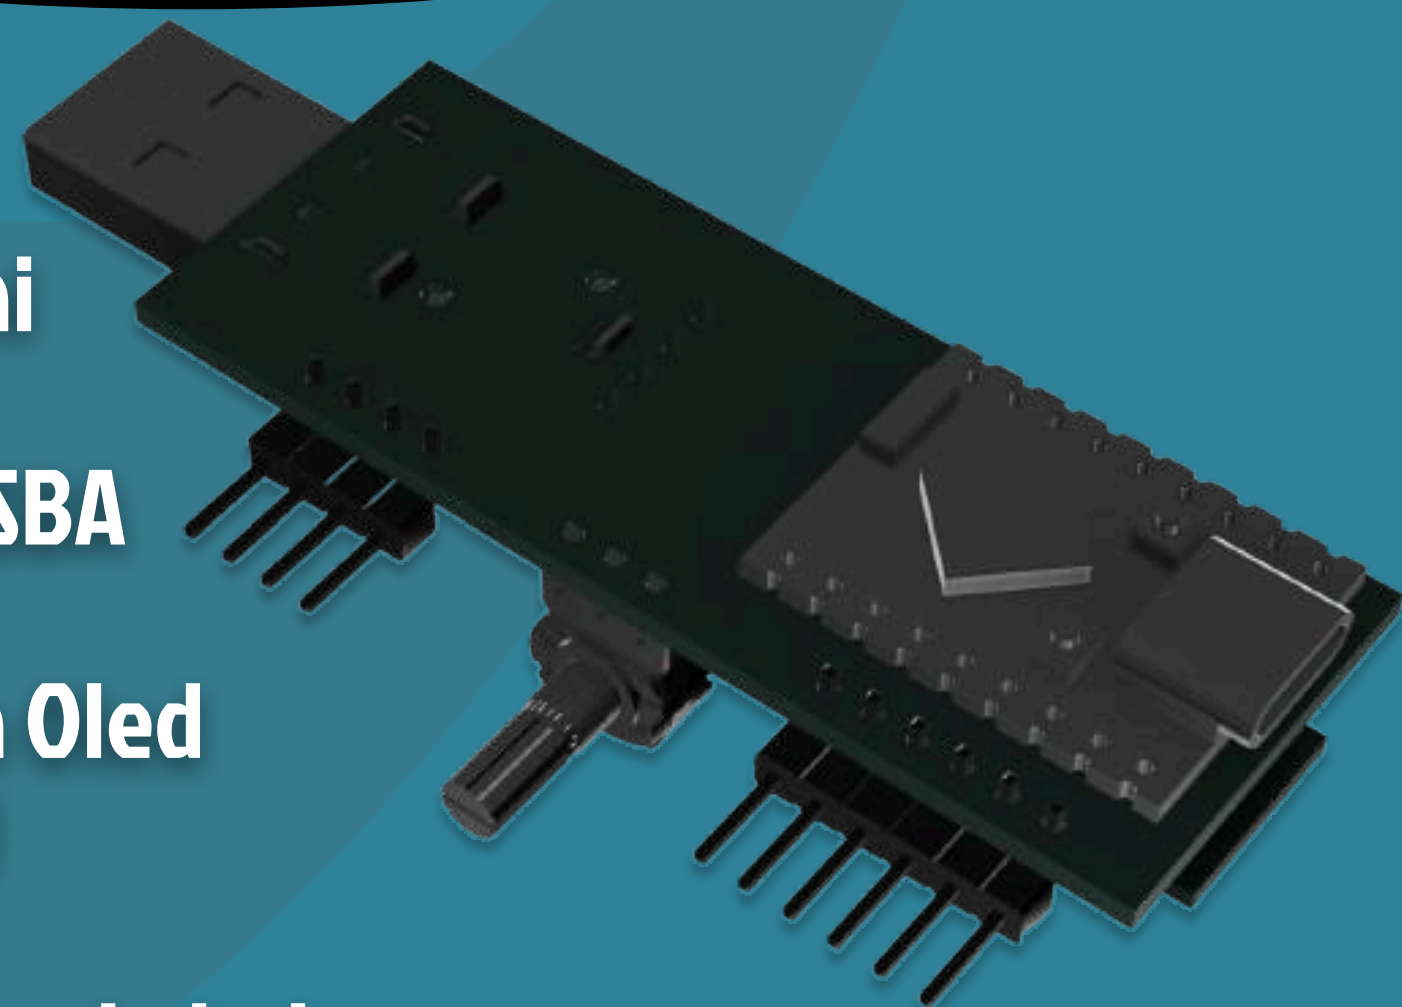

Github Repo

Bluetooth and Wifi Supported
MicroPython and ArduinoIDE supported
USBHID and BLEHID supported
Dual Serial supported
Suitable for any DAILY uses :D

THIS GADGET IS KINDA... SUS
Definitely its some kinda bomb initiator made by a
Electronic Nerd in HackClub

ESP32 S3 Supermini
Potentiometer
Serial Male Port USBA
Extendable GPIO
On Board 0.91Inch Oled
On Board RGB Led
On Board CH340
On Board Buzzer and oled
On Board Mini Joystick
Basically it's function is way more than a
bomb initiator :l
