USBHID and BLEHID supported
Dual Serial supported
Suitable for any DAILY uses :D

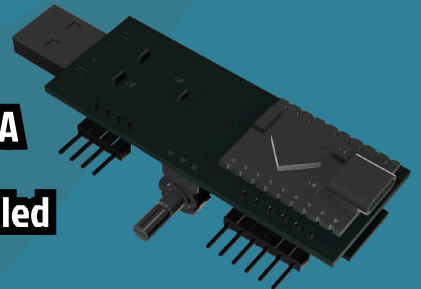

Github Repo

THIS GADGET IS KINDA... SUS
Definitely its some kinda bomb initiator made by a
Electronic Nerd in HackClub

ESP32 S3 Supermini
Potentiometer
Serial Male Port USB-A
Extendable GPIO
On Board 0.91Inch Oled
On Board RGB Led
On Board CH340
On Board Buzzer and oled
On Board Mini Joystick
Basically it's function is way
more than a bomb initiator :l

Im not gonna write my real name incase if some ppl really make a bomb initiator with
this sus thing and cops will find me :l
