

SUS-GADGET

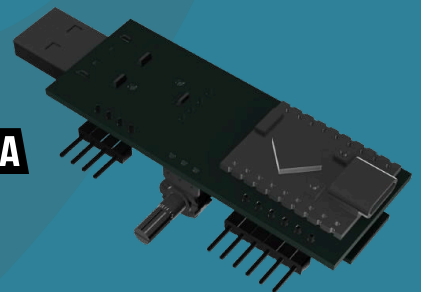

Github Repo

THIS GADGET IS KINDA... SUS
Definitely its some kinda bomb initiator made by a Electronic Nerd in HackClub

ESP32 S3 Supermini
Potentiometer
Serial Male Port USB A
Extendable GPIO
On Board RGB Led
On Board CH340
On Board Buzzer and oled
On Board Mini Joystick
Basically it's function is way more than a bomb initiator :l

Im not gonna write my real name incase if some ppl really make a bomb initiator with this sus thing and cops will find me :l
